

SW Florida Chess Club

Instructions for setting Excalibur Game Time II Digital Chess Clock

Time control: "G/55 +5"inc

1. Turn off the clock. Set the slide on top to Pause.
2. Turn on the clock by pushing button on bottom.
3. Push the Select button. You will see Preset.
4. Use the -or + buttons to go to U5 (User setting). This is one setting minus from Preset 1.
5. You will see Primary (1st time control). You will leave this one alone, since there's only one time control. Hit Select to move through this and make all values 0.
6. You will see Second (2nd time control). You will leave this one alone, since there's only one time control. Hit Select to move through this and make all values 0.
7. Stop when you see ":00" Sudden. This is the Sudden Death time control.
8. ":00" is left hand seconds. Set to :00.
9. Hit select. You will see xxx minutes on left hand side. **Set to 055.** Hit Select.
10. ":00" is right hand seconds. Set to :00.
11. Hit select. You will see xxx minutes on right hand side. **Set to 055.** Hit Select.
12. You will see Counter 00. Leave as it is, because this is a sudden death time control. Hit Select.
13. You will see Delay with 5. This should be set to 0.
14. Select: Claim OFF. Recall OFF. Counter Off (set On for move counter). Game End OFF.
15. Select: Accum ON (this is increment). **Set to 05.**
16. Select: Sound off.
17. Select: All Accum to ON – this is because the increment applies from Move 1.
18. Select: Word OFF. Second ON (puts seconds on display).
19. You are now set.
